

# RUBBER MATTING

STABLE, WALKWAY, HORSEBOX AND TRAILER RUBBER PRODUCTS

## Why rubber matting?

- Soft, comfortable, warm and insulating
- Reduces risk of slipping and sores
- Dust free - helps combat respiratory disorders
- Less time to muck out
- Saves up to 80% on bedding costs
- Reduces storage and muck heap

WE SPECIALISE IN HIGH QUALITY, LONG LASTING, HARD WEARING FLOORING AND WALLING PRODUCTS FOR THE EQUESTRIAN VEHICLE MANUFACTURER.

**KRAIBURG STABLE MATS**

From Europe's leading manufacturer of animal flooring - supplied with a 10 year guarantee against wearing out.

**KEN MAT**

Solid rubber mat with a hammer blow anti-slip textured surface. Studded underside for free drainage of liquid underneath. The first choice for stables with a drainage fall. No need to remove for cleaning, simply lift a corner and flush out with a hose.

CODE	SIZE (mm)	WEIGHT
4085-1857	1850 x 1200 x 20	42 kg

**KN MAT**

Made from the same high quality rubber as the KEN mat for stables without a fall. Ribbed underside sits close to the floor to minimise puddling.

CODE	SIZE (mm)	WEIGHT
4086-1857	1850 x 1200 x 18	45 kg

**SOLOFLOOR**

Quite simply the most hygienic, best performing, seamfree single piece stable floor on the market today. A single sheet of rubber laid over a soft underlay suitable for standard stabling and veterinary situations. Due to the size and weight of this product we recommend our specialist fitting service.

CODE	SIZE (mm)	WEIGHT
4087-4000	Various x 10mm thick	10kg/m <sup>2</sup>

**WYCOMBE STABLE MAT**

Made from non-porous, high quality solid rubber, this mat has a tortoiseshell top surface with a wide rib base. Suitable for all horsebox, stable and walkway applications.

CODE	SIZE (mm)	WEIGHT
4091-1857	1830 x 1220 x 17	40 Kg
4093-1857	1830 x 1220 x 10	25 Kg

**STANBRIDGE STABLE MAT**

Made from solid rubber with a bubble top surface and a wide rib base. Suitable for stable, horsebox and walkway applications.

CODE	SIZE (mm)	WEIGHT
4089-1857	1830 x 1220 x 17	42 Kg

### RUBBERLITE MAT

This unique mat is made from a mixture of rubber and EVA. This gives it the lightweight characteristics of EVA but with added durability for long lasting use. Use in stables or horse transporters.

CODE	SIZE (mm)	WEIGHT
4094-0320	1850 x 1200 x 20	9 kg

### LOKMAT

These mats are easy to handle, they interlock together to make a mat of any size, preventing gapping, even in areas not bounded by walls.

CODE	SIZE (mm)	WEIGHT
4090-1227	1220 x 910 x 17	20 kg

### GRANULISTIC LIQUID RUBBER FLOORING

A trowel applied latex rubber flooring that cures to form an impervious hard wearing equestrian flooring. Suitable for veterinary situations, stables, lorries and trailers. Pack coverage 1.8m<sup>2</sup> @ 12mm thick. Use a spiked roller to finish and seal the surface.

CODE	WEIGHT
4097-0127	24 kg
4097-1000	Spiked roller

### CONTINUOUS ROLL RUBBER

Hardwearing anti-slip rubber matting - the ultimate for joint-free walkways and horse transporter flooring. Up to 2.4m wide. Hammer blow top with micro rib base. Use with our underlay for extra softness.

CODE	SIZE
4110-2407	2.4m x 10mm x 40m available cut to length
4110-2417	2.4m x 15mm x 40m available cut to length
4111-2207	2.2m x 15mm x 40m available cut to length
4111-2217	2.2m x 10mm x 40m available cut to length
4112-1807	1.8m x 10mm x 40m available cut to length
4113-1207	1.2m x 10mm x 40m available cut to length

### UNDERLAY

Rubber crumb underlay for use under continuous roll rubber or Solofloors to create a softer surface.

CODE	SIZE
4115-1507	12m x 1.5m x 10mm Sportech underlay
4116-1257	1.25m x 1.0m x 20mm Vibrasoft underlay

### PENNYWASHER STUD MATTING

An attractive hard wearing matting. Stocked in black but available in colours to order.

CODE	SIZE
4109-1228	1.2m x 3mm x 10m available cut to length

**MOULDED RUBBER RAMP MAT**

Ribbed ramp mat with integral rubber bars. The superb rib texture offers maximum slip resistance while the integral rubber bars, spaced to conform to DEFRA regulations, are also ribbed to ensure a secure foothold for both horse and handler. The mat is non-absorbent 100% rubber and can be hosed clean in seconds. The premium choice of most horsebox manufacturers. Available in single or two piece format and in smaller size to suit trailers.

CODE	SIZE (mm)	WEIGHT
------	-----------	--------

4100-2257	2.15m x 2.48m (single piece)	56 kg
4101-2407	2.4m x 2.4m (two piece)	65 kg
4102-1557	1.55m x 1.75m (trailer ramp)	28 kg

**RAMP CARPET**

Latex backed ribbed ramp carpet. Stocked in dark grey but other colours available to order. Available in two widths.

CODE	SIZE
------	------

4103-2008	2m wide x 25m available cut to length
4104-2009	1m wide x 25m available cut to length

**GRIP TOP RUBBER**

Hard wearing grip-top rubber matting providing excellent grip for all ramps. Available in two widths.

CODE	SIZE
------	------

4105-1507	1.5m wide x 50m available cut to length
4106-1207	1.2m wide x 50m available cut to length

**BROAD RIB RUBBER**

An economical ribbed rubber suitable for many applications from ramps to living areas and general walkways.

CODE	SIZE
------	------

4107-1207	1.2m x 6mm x 10m available cut to length
4107-1247	1.2m x 4mm x 10m available cut to length

**FINE RIB RUBBER**

Suitable for many applications where low cost, easy clean protection is required.

CODE	SIZE
------	------

4108-1207	1.2m x 3mm x 10m available cut to length
-----------	--

### INSERTION RUBBER

Smooth finish rubber with a cotton insertion for use on partitions and walls.

#### CODE

#### SIZE

4120-1407	1.4m x 5mm x 10m available cut to length
4121-1207	1.4m x 3mm x 10m available cut to length

### CLEAR PVC SHEETING

Very strong PVC for use on horsebox partitions.

#### CODE

#### SIZE

4125-1208	1.2m x 4mm x 10m available cut to length
4126-1208	1.2m x 3mm x 10m available cut to length
4127-1208	1.2m x 6mm x 10m available cut to length

### EVA WALL BOARDS

Suitable for lining both stable and horsebox walls. These lightweight energy absorbing wallboards will provide the ultimate protection for your horse. Surface finished in a random pattern. Use our recessed washers and stainless steel screws to fix to solid surfaces.

#### CODE

#### SIZE (mm)

#### WEIGHT

4094-0127	1800 x 1200 x 11	4.5 Kg
4094-0137	2300 x 1200 x 11	6.0 Kg
4094-0167	1800 x 1200 x 15	6.0 Kg
4094-0177	2300 x 1200 x 15	8.0 Kg
4094-0227	1800 x 1200 x 22	9.0 Kg
4094-1000	s/s screw, plug and recessed washer.	

### GROUND RING MAT

The ideal solution for muddy gateways. Free draining perforated mats reduce poaching and create a stable walking surface. Use singly or cable-tie together. Also suitable for washdown areas.

#### CODE

#### SIZE (mm)

#### WEIGHT

4191-1507	1500 x 1000 x 16	14kg
4192-1507	1500 x 1000 x 23	18kg

### FINGERTIP ENTRANCE MATS

Thousands of rubber bristles clean boots and shoes fast. Exceptionally hard wearing and will not clog with dirt. Ramped edges for non-trip safety.

#### CODE

#### SIZE (mm)

4095-0807	800 x 600
4095-1007	1000 x 800

### BOOT SCRAPER ENTRANCE MATS

With a distinctive horse's head moulded into the centre of this mat, it will grace any doorway. Heavy duty rubber bars effectively clean the muddiest footwear. Heavy enough not to blow away in exposed locations.

4130-2500

25 Kg

## HORSEWALKER FLOORING

**A rubber horsewalker floor can reduce the stress on horse's limbs, reduce the risk of slipping and minimise shoe wear.**

**We offer two systems with a full fitting service available.**

### RUBBER BRIQUETTES

Interlocking bricks made from thick composite rubber. Specifically developed in extra heavy duty quality for horsewalkers. They provide a higher level of shock absorption with greater slip resistance and are free draining. Choice of red, green or black.

### KRAIBURG KN MATS

We believe these mats are the only ones suitable to take the punishment of horsewalker use. Slip resistant easy clean surface.
